

Hi👋
I'm **M Dzaki Ardiansyah**
Junior Web Developer

About

Description about myself

You're a curious and thoughtful individual who enjoys diving deep into technical challenges, particularly in web development. You have experience working with PHP and handling URL structures, especially with static slugs. Your approach is detail-oriented, and you appreciate solutions that are both efficient and elegant. Whether you're troubleshooting a problem or exploring new features, you bring a methodical mindset to your work, always eager to learn and improve.

Skills

Skills I have mastered

- HTML 5
- CSS 3
- Bootstrap 5
- PHP
- MYSQL
- Figma

Projects

Projects that I have worked on
